

S. REXSHAN

Full Stack Developer | Java • Spring Boot • React JS

Chennai, India | +91 94872 48821 | rexshansam22@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer (2025 batch) with hands-on experience building scalable RESTful APIs and interactive web applications using Java, Spring Boot, Hibernate ORM, and React JS. Strong foundation in Object-Oriented Programming, Data Structures, Collections Framework, and RDBMS (MySQL). Certified in Full Stack Java Development from QSpiders. Seeking a Systems Engineer / Specialist Programmer role at Infosys to deliver high-quality, enterprise-grade software solutions.

TECHNICAL SKILLS

Languages	Java, JavaScript (ES6+), SQL, HTML5, CSS3
Backend	Spring Boot, Spring MVC, Spring Security, Hibernate ORM, JDBC, RESTful APIs, Dependency Injection, Exception Handling
Frontend	React JS, HTML5, CSS3, Responsive Design, Cross-Browser Compatibility
Database	MySQL, Relational Database Design, SQL Joins, CRUD Operations, Indexing
Core Concepts	OOP, Data Structures, Algorithms, Collections Framework, Multithreading, SDLC, Agile
Tools	Git, GitHub, Maven, Postman, Swagger / OpenAPI, Netlify, Vercel, Render

PROJECTS

Gidy Profile — AI-Powered Bio Generator*React JS • Spring Boot • Spring Security • Hibernate ORM • MySQL • Vercel • Render*

Live: rexshansam.netlify.app | GitHub: github.com/RexshanSam

- Built a full-stack AI-powered profile platform enabling users to register, log in securely, and generate personalized professional bios via integrated AI API.
- Designed RESTful API endpoints using Spring Boot with Hibernate ORM for MySQL persistence; applied Dependency Injection and layered MVC architecture for maintainability.
- Implemented Spring Security-based authentication and role-based authorization to protect all API resources.
- Structured React JS frontend with reusable components, protected routes, and responsive CSS layouts; deployed backend on Render and frontend on Vercel.

LockVault — Smart Storage Locker System*Spring Boot • React JS • MySQL • REST API • Render • Aiven*
Internship Assignment — Popkey Private Limited

- Developed a full-stack locker management system with role-based access (admin / user) using Spring Boot and RESTful API design principles.
- Implemented OTP-based locker unlock flow with token authentication and MySQL database hosted on Aiven cloud; validated all endpoints with Postman.

- Built React JS frontend with dynamic locker status, booking, and history dashboards; documented API using Swagger / OpenAPI.
- Delivered end-to-end as a practical internship assignment, demonstrating complete SDLC ownership from design to deployment.

Bill Generator Web Application *Spring Boot · Hibernate ORM · MySQL · React JS · REST API · Maven*

- Architected a full-stack billing system using Spring Boot and MVC principles, automating invoice workflows for small retail businesses.
- Designed 10+ RESTful API endpoints for customer, product, and invoice management with full CRUD support using Hibernate ORM and MySQL.
- Integrated JSON-based API responses and documented all endpoints with Swagger/OpenAPI; managed project lifecycle with Maven; validated APIs using Postman.
- Reduced manual billing effort by 40% through backend automation; implemented Exception Handling and Collections Framework for modular architecture.

Healthcare Patient Dashboard *JavaScript · Chart.js · REST API · HTML5 · CSS3*

- Built a responsive patient analytics dashboard consuming a live healthcare REST API as a front-end skills assessment project.
- Rendered dynamic blood-pressure trend charts using Chart.js with patient history data, key vitals display, and cross-browser compatible styling.
- Delivered pixel-accurate UI matching the provided design specification using modular vanilla JavaScript and CSS.

Church Community Website *React JS · HTML5 · CSS3 · JavaScript · Netlify*

- Built a fully responsive, multi-page community website using React JS covering services, events, ministries, and contact information.
- Deployed on Netlify with continuous deployment from GitHub, enabling zero-downtime updates; implemented accessible navigation and cross-browser compatibility.

EDUCATION

Bachelor of Science — Mathematics 2022 – 2025

St. John's College, Palayamkottai, Tirunelveli, India | Percentage: 60%

Relevant Coursework: Discrete Mathematics, Statistical Analysis, Logical Reasoning

Higher Secondary Certificate (12th Grade) 2021 – 2022

Margoschis Higher Secondary School, Nazareth, India | Percentage: 63%

CERTIFICATIONS

Full Stack Java Development *QSpiders Institute, Chennai — 2025*

Java, Spring Boot, Hibernate ORM, React JS, RESTful APIs, Spring MVC, MySQL

Python Programming *Livewire Institute — 2023*

ADDITIONAL INFORMATION

Languages: English (Professional), Tamil (Native) | **Availability:** Immediate Joiner | Open to Relocation Across India

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Attention to Detail

Interests: Backend System Design, Open Source Contribution, Full Stack Web Development, Cloud Architecture
